

# RENTERS MASS EVICTED RENTS SKYROCKETING

## YOU COULD BE NEXT!

**THE BC LIBERAL GOVERNMENT** has rewritten the Residential Tenancy Act to favour landlords, allowing mass evictions of people like you from your home, and community. They have also made it possible for landlords to get massive market rent increases, even if you have a lease.

**HOW?** Landlords easily get around tenancy laws either by simply asking you to agree to pay more rent, or they evict you, claiming your suite needs to be vacant for renovations. Floor-by-floor and building-by-building, corporate landlords are evicting tenants so they can double the rents.

**REALITY:** Tenants who challenge their evictions at the government's Residential Tenancy Branch find the process exhausting, and usually lose their cases, despite recent BC Supreme Court rulings in tenants' favour. Adding another RTO office is not going to solve the problem, the system must change.

**SOLUTION:** The government of Ontario has taken action to stop evictions by implementing rights of first refusal. The BC Government refuses to change the legislation to help tenants and denies that mass evictions and rising rents are even a problem. *Renters need a government that will protect them!*

## NO ONE IS SAFE

**Send The Government A Message! Vote!**

**Oct 29th Vancouver-Burrard and Fairview By-Elections  
Nov 15th Municipal Election**

Renters At Risk is a non-partisan coalition of renters standing up for a balanced system of renters rights
